VALUE PROPOSITION

Swift and Easy Processing!

PROBLEM/SOLUTION OVERVIEW

Students currently face a challenge in accessing club-related information, and the reliance on a paper-based application process creates further inconvenience by making the process time-consuming. Our goal is to provide an online platform that caters to online applications, allows public viewing, and enables administrators to keep track easily.

Online Applications

Moderate

The image shows a user interface for creating or editing a video. On the left, there's a library titled "Visuals" containing numerous thumbnail previews of AI-generated video clips. Many thumbnails feature a character named "Alex" in various scenarios like "MAILBOX", "Dashboard", "FORM", and "JOIN CLUB". Each thumbnail has a pink "In Use" badge. Below the library, there's a section for adding media with options to "Drag and drop, browse Backlot, or upload". A preview window on the right displays a 3D animated computer screen with a blue and white digital form UI. At the bottom, a timeline shows the sequence of clips, with a yellow marker at 00:18:03. The timeline also includes audio tracks with labels like "te f...", "Then comes the...", "Until Alex discovers there's a better wa...", "Instant submi...", "And for administrators like Principal Th...", and "Computer...". The bottom navigation bar includes buttons for "Generate" and "Cost: 25 credits".

Admin Tracking

Complex

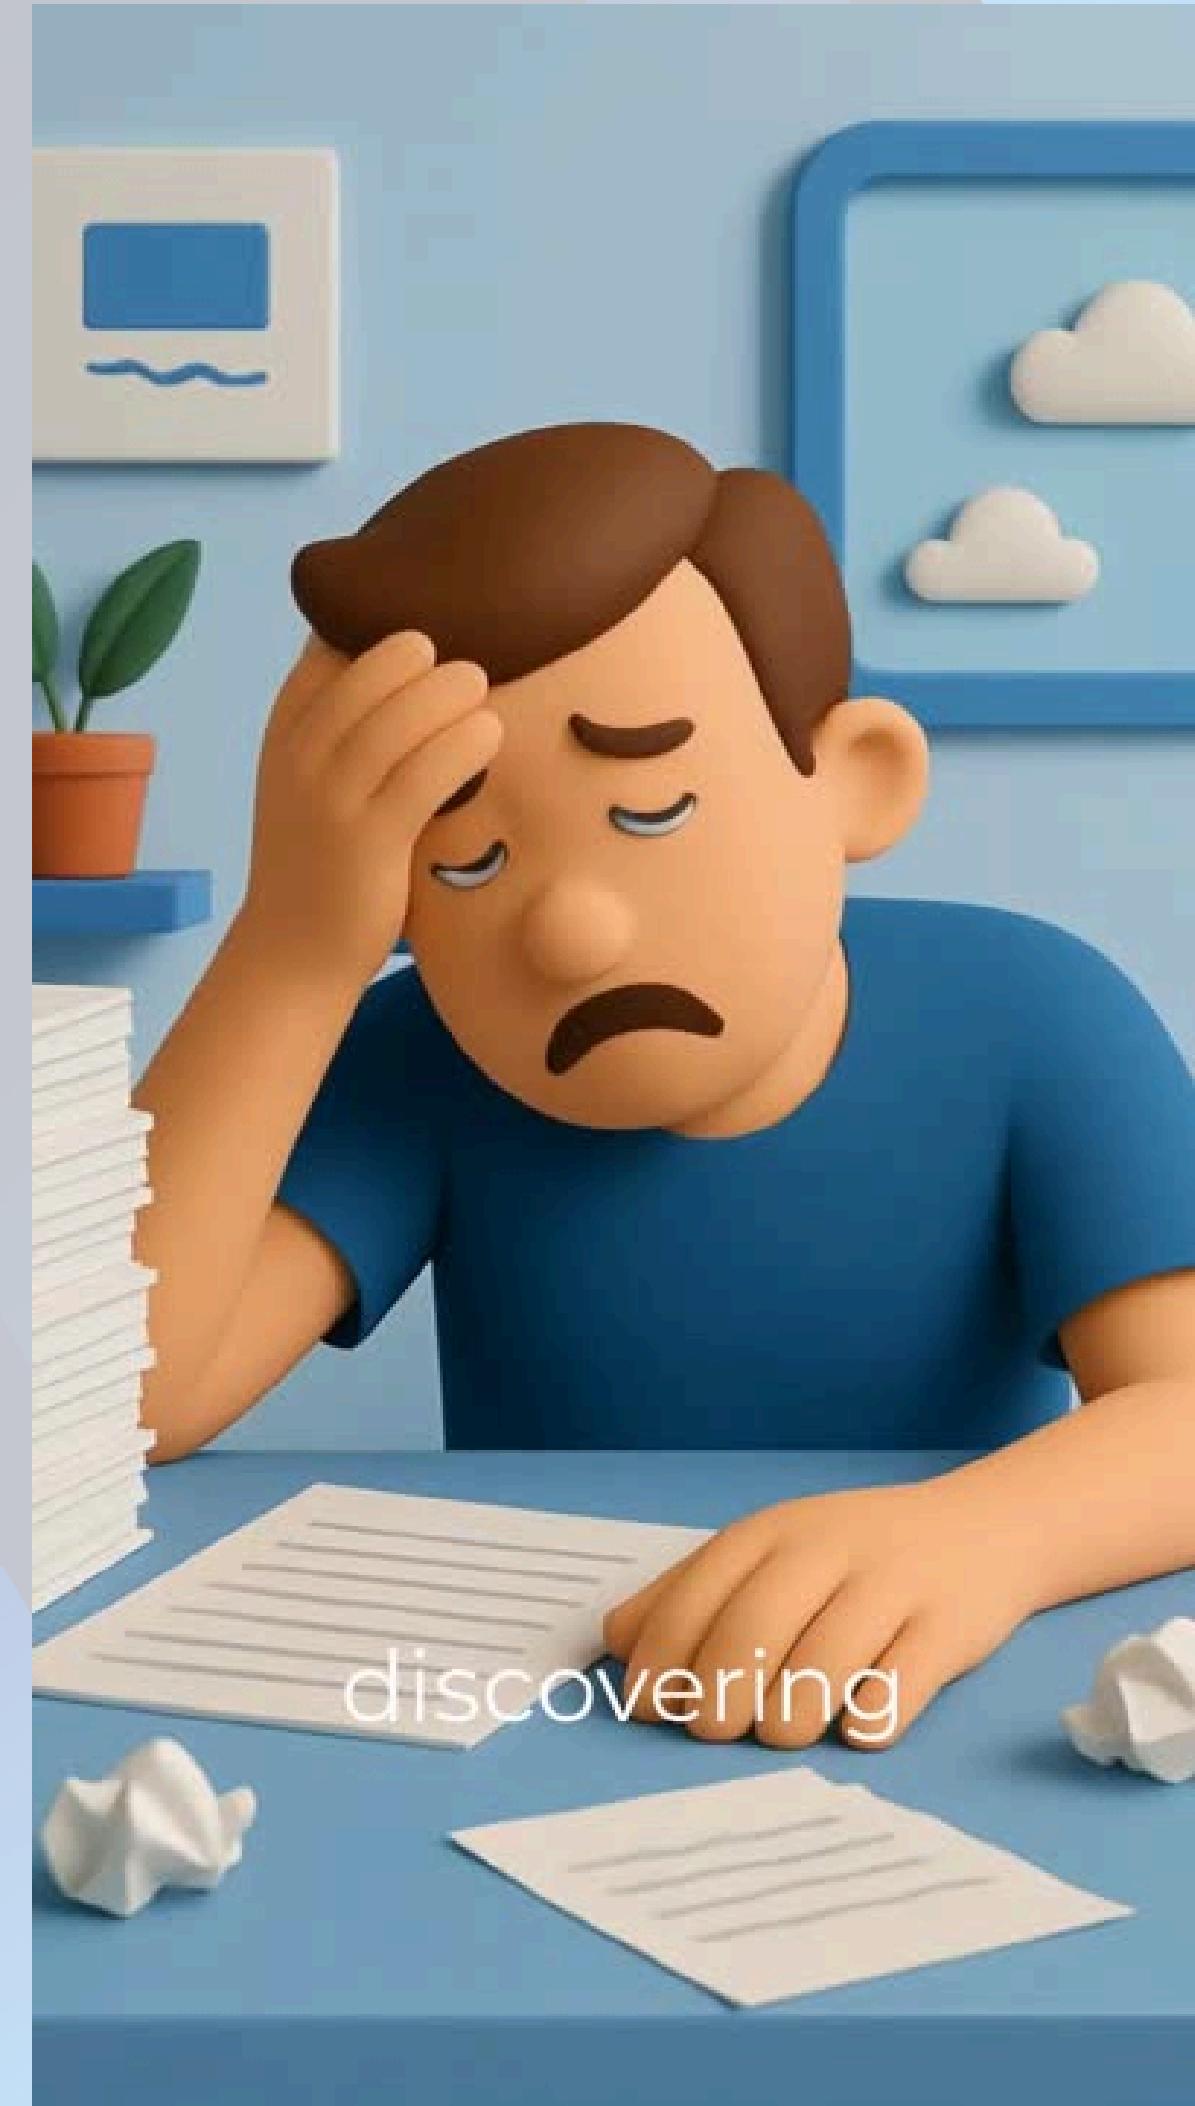

The image shows a composite view of a video production software interface and a generated video frame.

Left Panel (Interface):

- Top Bar:** Visuals, Music, Sound, Text, Effects, and a search bar: "Q Search by description, model, or type..."
- Library:** A grid of 15 thumbnail previews labeled "AI Video".
 - Row 1: AI Video, AI Video, AI Video, AI Video, AI Video
 - Row 2: AI Video (labeled "In Use"), AI Video (labeled "In Use")
 - Row 3: AI Video (labeled "In Use"), AI Video (labeled "In Use")
 - Row 4: AI Video (labeled "In Use"), AI Video (labeled "In Use")
 - Row 5: AI Video (labeled "In Use"), AI Video (labeled "In Use")
- Bottom Buttons:** Upload, Drag and drop, browse Backlot, or upload, Video, AIV Consistent, Portrait, 5s, 1, and a generate button.
- Description:** A 3D animated close-up of Principal Thompson's computer screen clicking next then displaying colorful Club Upcoming event's dashboard. Soft ambient lighting and matte UI textures maintain the modern aesthetic.
- Cost:** 25 credits

Right Panel (Generated Video Preview):

- Thumbnail Preview:** Shows a sequence of frames from the generated video, including a close-up of a character's face and various screens of the "CLUB UPCOMING EVENTS" dashboard.
- Player Controls:** Includes back, forward, play, and volume controls.
- Timeline:** Shows the timeline with specific markers at 00:10, 00:15, 00:20, 00:25, 00:27:10, and 00:30.
- Script and Soundtrack:** Displays dialogue and sound effects tracks with descriptions like "Then comes the...", "Until Alex discovers there's a better wa...", "Instant submi...", and "And for administrators like Principal Th...".
- Bottom Notes:** Includes "touchscreen click sou..." and other technical notes.

THANK YOU
